“UNPARALLELED CAPABILITY”

The RTV6 builds on the successful design characteristics of the RTV family with an additional rear axle, delivering a significant increase in payload and a wider range of mission kits, all underpinned by the proven reliability, performance and robustness of the in-service vehicle.

FEATURES:

- > High capacity front tray and large rear tray optimizes weight distribution for improved vehicle stability and handling
- > Over 1500kg (2200lbs) of reconfigurable payload
- > 2 seats combined with 1 or 2 litters for casualty evacuation
- > Fully flat front and rear cargo trays with inbuilt tie down rails.

SPECIFICATIONS:

- > 85HP Rotox Gasoline Engine
- > Top Speed 108km/h (67mph)
- > Range: 320km (200 miles)
- > Fording: 750mm (30in) @ 5mph
- > Ground Clearance: 340mm (13.4in)
- > Payload: Min. 1000kg (2200lbs)
- > Winch: Front / Rear

MISSION KITS:

- > Multi-position collapsible integrated minigun (M134-D)
- > Integrated 3000 round 3-Bay Ammunition Magazine for M134-D
- > Crew Served Weapons (CSW) including - M2, M3M, M134-D and Mk19
- > CsUAS Integrated Mast with Radar, E/O and RWS
- > RWS Compatible
- > Javelin Missile System
- > LGR-4 Fletcher
- > Mortars - 60mm, 81mm & 84mm (inc. Launcher)
- > Dual swing Arm M240/M249 mount for non-driving crew
- > Javelin anti-tank system
