

2M Language Services Unveils Cutting-Edge AI Language Solutions for Rapid and Secure Global Communication

[Brisbane, 21 May 2024] – 2M Language Services, Australia's leading language technology and language service provider, is proud to announce the launch of its innovative suite of AI-powered language services designed to revolutionise global communication. The new offerings, collectively branded as 2M Language AI, include [AI Dubbing](#), [AI interpreting](#) for both telephone and events, and [AI translation](#).

These advanced solutions cater specifically to businesses and organisations requiring swift, high-volume content translations or urgent access to language support. Leveraging state-of-the-art artificial intelligence, 2M Language AI ensures unparalleled efficiency and accuracy in multilingual communication.

"We are thrilled to introduce 2M Language AI, a game-changing advancement in language services," said Thomas Lespes, CTO at 2M Language Services. "Our AI-powered solutions not only guarantee rapid turnaround times but also maintain stringent security measures. Clients can rest assured that their sensitive information remains protected."

Each in-language output generated through 2M Language AI is crafted based on human-approved translations, ensuring linguistically accurate and contextually appropriate communication across diverse languages.

"Our commitment to quality and security drives everything we do," added Thomas Lespes. "With 2M Language AI, businesses can confidently navigate global markets, delivering effortless communication that resonates with audiences worldwide."
